WHAT IS THE ATP CTP?

The Airline Transport Pilot Certification Training Program (ATP CTP) is a stand-alone course pre-requisite for the ATP written exam for multiengine. The course is FAA Approved.

What does ATP CTP consist of and how long is it?

30 hours of Academic Training including Aerodynamics, Meteorology, Air Carrier Operations, Leadership, CRM and Safety.

- 4 hours - Fixed Based Simulator
- 6 hours - Full Motion Flight Simulator
- 6 Day Program (without Knowledge Test) Monday Morning to Saturday Evening
- 8 Day Program with ATP Written Exam included. Monday Morning to Sunday Evening, with the written test on Monday.

Does ATP CTP result in a type rating or a FAA license?

No, ATP CTP is NOT a type rating course. It is a stand-alone pre-requisite requirement for the ATP written exam for multiengine.

Are there preparation materials for ATP CTP?

No, ATP CTP requires no advanced preparation. The required content is all delivered as part of the course and no aircraft-specific information is required.

Do I have to sign up for the test myself at a test center nearby?

No, Your ATP written test is included in your program, our staff will help you book your test at your arrival.

WHAT IS THE ATP CTP?

Does ATP CTP prepare me for the ATP written exam?

No, ATP CTP training does not provide specific preparation toward the ATP written exam. The course has specific content related to large, transport category aircraft and airline operations and is a pre-requisite for the ATP Written Exam for multiengine. There are hundreds of applications to prepare yourself for the written test, the one we recommend the most is Sheppard Air, we do have a partnership with them, if you contact them you should receive a discount: <https://www.sheppardair.com/atp.htm>

How long are written exam results valid for?

ATP multi engine written exam results are valid for 60 calendar months.

Is ATP CTP a requirement to take the ATP written for single engine?

No, there is no requirement to take the ATP CTP if pursuing the single-engine ATP. The ATP CTP requirement only applies to multiengine ATP Written Exam.

What do I receive as evidence of ATP CTP completion?

At the conclusion of ATP CTP training, you will receive a graduation certificate which must be presented at an FAA written testing center in order to take the ATP written exam for multiengine.

Does the ATP CTP graduation certificate expire?

No, there is no expiration for the ATP CTP graduation certificate.

Is TSA security clearance required of Non-US citizens?

Yes, all non-US citizens are required to complete a Category 1 TSA training request and receive approval. Additional costs apply.
